High Performance Parts

High Performance Carbon Add-On Parts

High Performance parts lend an air of outstanding performance: refined, sporty, exclusive and at the same time strong. Every part is a masterpiece in itself. If it's perfection you want, you'll find it here. Add-on parts in carbon – the ultimate lightweight material – combine a sophisticated look and technical expertise.

Storage options

Aluminium cases

The two waterproof aluminium cases together offer a volume of 82 l. They each come with two locks and lashing eyelets for further luggage. Single-key locking systems are available.

Functional inner bags

There are also waterproof inner bags for the aluminium cases and the topcase. They make loading and unloading easier, protect the luggage and, thanks to their straps, are easy to transport. Includes fastening kit.

Aluminium topcase

The waterproof topcase has a volume of 32 l and also features lashing eyelets for further luggage.

Carrier for aluminium panniers

As part of the aluminium luggage system, the carriers made from electropolished stainless steel deliver what they promise.

Topcase carrier for aluminium topcase

The topcase carrier is used for securing the aluminium topcase to standard stainless steel luggage grids.

Tankbag

The tankbag features a large map pocket, integrated detachable hip bag and handy rolltop closure. It's also waterproof. What's more, the Teflon coating effectively repels dirt. The volume can be increased from 15 l to 22 l.

ORIGINAL BMW MOTORRAD ACCESSORIES

Design options

Telelever and fork bridge cover caps

The "dot on the i". The turned aluminium caps with their milled structure are superb examples of BMW's passion for detail.

Chrome-plated cylinder head covers

Highlights the sporty, sophisticated look of the R 1200 GS Adventure.

LED indicator lights

Their design and function truly does lead the way. Visually coordinated to match the R 1200 GS Adventure perfectly, the LED indicator lights shine with a reduced power consumption and significantly extended service life.

| Design options | | RRP inc. VAT* |
|--|-----------------|---------------|
| • Set of fork bridge cover caps | 31 42 7 708 547 | £ 12.85 |

| • Heated handlebar grips and switches | | *4/*5 |

Sound components

Akrapovič sports silencer

High-end perfection: made entirely from titanium, featuring a lasered Akrapovič logo. Excellent sound makes every journey a sporty experience for the ears too. Weight saving compared to standard silencer around 2.5 kg.

Ergonomics and comfort options

Tinted windshield

Accentuates the overall sporty look of the R 1200 GS Adventure.

Heated handlebar grips

Warm hands feel good. The heated handlebar grips, which have two settings, ensure that hands and fingers stay warm.

*1 Can also be used as an additional bag on the aluminium pannier / topcase (note the weight of each pannier/topcase and the permitted overall vehicle weight)

*2 Also matches in combination with BMW Motorrad Navigator

*3 Can be used on both the luggage grid and the pillion passenger seat (without pannier)

*4 Enabled by a specialist workshop, ideally your BMW Motorrad dealer

*5 More detailed information can be obtained from your BMW Motorrad dealer or on the Internet at www.bmw-motorrad.co.uk

*6 As standard on special edition 30 YEARS GS

*7 Only in combination with ABS

*8 Not in combination with tankbag

*9 Installation / operating instructions are available from your BMW Motorrad dealer

*10 Fitted by a specialist workshop, ideally your BMW Motorrad dealer

ORIGINAL BMW MOTORRAD ACCESSORIES

Navigation and communication components

BMW Motorrad Navigator IV

Where am I, where do I want to go and what's the quickest way to get there? Questions that come up time and time again, and can be answered very easily: with the BMW Motorrad Navigator IV. Easy to install, it's the ideal GPS navigation system.

Safety options

Large upper section for hand guard

The upper section, designed for the two-part hand guard, offers additional protection from wind, weather and stones.

Enduro ASC (Automatic Stability Control)

This system, which can be disabled at any time, prevents the uncontrolled spinning of the rear wheel, thereby helping the rider on difficult terrain.

LED additional headlights

Turn night into day. The LED additional headlights are a bright and powerful addition to the R 1200 GS Adventure.

Headlight guard

The headlight guard effectively protects the headlight from damage off the road (not approved for road use).

Enduro aluminium engine guard

The sturdy Enduro aluminium engine guard, designed especially for off-road use, provides effective protection from damage to the lower section of the engine, especially in rough terrain.

Anti-theft alarm system

The system responds to changes in position and jolts with a clearly-audible signal and flashing hazard warning system. Can be conveniently operated by remote control. Also available as a factory fitted option.
